

**Glow Solutions
Participation Agreement**

This Facilitation Agreement (this “**Agreement**”) is made and entered into as of the 22nd day of February, 2024 (the “**Effective Date**”), by and between Glow Solutions, LLC, a Delaware limited liability company (“**Glow Solutions**”), and [REDACTED] (“**Client**”).

WHEREAS, Glow International, *a third party not affiliated with Glow Solutions*, has developed the Glow protocol (the “**Protocol**”), which is a crypto economic system that produces high additionality carbon credits from cost effective solar farms by (a) requiring owners of participating solar farms to contribute a one time protocol fee equal to 100% of the gross electricity revenue accruing from such solar farms to the Protocol’s incentive pool as USDC, thus earning Protocol tokens (known as Glow tokens), which are ERC20 tokens on the Ethereum blockchain (“**Protocol Glow Tokens**”), and (b) providing owners of participating solar farms with Protocol carbon credits, in the form of Glow carbon credit tokens, which are ERC20 tokens on the Ethereum blockchain (“**Protocol Glow Carbon Credit Tokens**”), which can then be redeemed for USDC, thus creating a reward for participating solar farms proportionate to the amount of carbon credits produced by such solar farms (Protocol Glow Tokens and Protocol Glow Carbon Credit Tokens, together, the “**Protocol Rewards**”).

WHEREAS, Glow Solutions has experience in training its clients that own and/or operate solar farms in the onboarding to and use of the Protocol, and in facilitating such clients’ onboarding to and use of the Protocol; and

WHEREAS, Client owns and/or operates one or more solar farms or systems (collectively, “**Client Solar Farms**”) and desires to engage Glow Solutions to train Client in, and facilitate Client’s activities with respect to, its onboarding to and use of the Protocol with respect to such Client Solar Farms (the “**Facilitation Services**”).

NOW, THEREFORE, in consideration of the mutual promises and for other good and valuable consideration as hereinafter set forth, and intending to be legally bound hereby, the parties agree as follows:

1. FACILITATION SERVICES

1.1 Facilitation Services. Glow Solutions will use commercially reasonable efforts to provide Client with the Facilitation Services described on Exhibit A attached hereto, in accordance with the provisions of this Agreement.

1.2 Client Cooperation.

(a) Client will fully cooperate with Glow Solutions in Glow Solutions’ performance of the Facilitation Services and comply in a timely and diligent manner with the provisions hereof and the governance, operational and other requirements of the Protocol (the “**Protocol Requirements**”). Glow Solutions’ obligation to provide the Facilitation Services hereunder will be subject to Client’s fulfillment of such obligations.

(b) Client will provide Glow Solutions with access to (i) qualified personnel capable of performing Client’s obligations, (ii) Client Solar Farms and other sites and facilities and (iii) Client’s personnel, systems and other support, in each case as reasonably requested by Glow Solutions to perform the Facilitation Services. Client will also make available to Glow Solutions any data, information or materials requested by Glow Solutions to perform the Facilitation Services (collectively, “**Client Materials**”). Client will be responsible for ensuring that all such Client Materials are accurate and complete.

1.3 Glow Solutions Materials. To the extent Client receives access to any Glow Solutions software, documentation, information or other materials (“**Glow Solutions Materials**”), Client may use such Glow Solutions Materials internally solely as necessary to receive the Facilitation Services hereunder. Glow Solutions reserves all rights not expressly granted to Client hereunder, and except as expressly set forth herein no rights are granted by implication, estoppel or otherwise.

1.4 Client Wallet. Client acknowledges that as part of the onboarding process for the Protocol, Glow

Solutions will train Client in setting up a digital wallet to receive Protocol Rewards (whether setting up a new digital wallet or leveraging Client's existing digital wallet that is capable of receiving Protocol Rewards) (the "**Client Wallet**"). Client understands and agrees that it is solely responsible for maintaining the security of the Client Wallet and its control over any Client Wallet-related authentication credentials, private or public cryptocurrency keys, tokens or cryptocurrencies that are stored in or are accessible through the Client Wallet. Any unauthorized access to the Client Wallet by third parties could result in the loss or theft of Protocol Rewards and/or other assets held in the Client Wallet, including any linked financial information such as bank account(s) or credit card(s). Glow Solutions is not responsible for managing and maintaining the security of the Client Wallet. Glow Solutions has no responsibility or liability to Client for any unauthorized access to or use of the Client Wallet, any loss, theft or misuse of any Protocol Rewards and/or other assets with respect to the Client Wallet or if Client is unable to locate its credentials for the Client Wallet.

1.5 Feedback. Clients may from time to time provide Glow Solutions suggestions or comments for enhancements or improvements, new features or functionality or other feedback (collectively, "**Feedback**"). Glow Solutions will have full discretion to determine whether or not to proceed with the development of any requested enhancements, new features or functionality, and Glow Solutions will have the full, unencumbered right, without any obligation to compensate or reimburse Client, to use, incorporate and otherwise fully exercise and exploit any such Feedback in connection with its products and services.

1.6 Acknowledgement of Risks. Client acknowledges and agrees to the following material risks associated with digital assets (including Protocol Rewards): (a) transactions in digital assets may be irreversible and, accordingly, losses due to fraudulent or accidental transactions may not be recoverable, (b) some digital assets transactions will be deemed to be made when recorded on a public ledger, which is not necessarily the date or time that the transaction is initiated, (c) the price of digital assets relative to fiat currency may be volatile and unpredictable, (d) the nature of digital assets may lead to an increased risk of fraud or cyber-attack, and (e) the regulatory environment in relation to digital assets is unclear and Protocol Rewards may be subject to regulation. Glow Solutions has no responsibility or liability to Client for any risks associated with digital assets.

1.7 KYC Compliance. In order for Client to receive the Facilitation Services, upon Glow Solutions' or its designee's request, Client will submit any and all forms, documents and information, and follow any processes and procedures, including, for the avoidance of doubt, any electronic verification system or process, which Glow Solutions determines, in its sole discretion, are reasonably necessary for Glow Solutions to comply with applicable anti-money-laundering ("**AML**") and countering financing of terrorism ("**CFT**") laws, as well as other "Know Your Customer" ("**KYC**") documentation. Client's rights to receive any Protocol Rewards may be forfeited, and Glow Solutions may immediately terminate this Agreement, if Client is charged, accused or reasonably suspected of illegal or unlawful acts, any non-compliance with AML or CFT regulations or other regulatory breaches.

1.8 Limitations. Without limiting anything herein, under no circumstances will Glow Solutions be responsible or liable for anything resulting from, caused by or attributable to: (a) Client's delay in or failure to take any actions upon which Glow Solutions' performance is dependent; (b) Client's failure to use the Facilitation Services in accordance with (i) this Agreement and (ii) any technical or operational requirements or documentation provided by Glow Solutions; (c) Client's failure to act in accordance with the Protocol Requirements; (d) failures, outages, operating changes or other disruptions in the Protocol, any blockchain or any network, software, hardware, service, equipment, system or anything else that is not within Glow Solutions' reasonable control; (e) the Client Solar Farms or Client's properties, assets, systems or facilities, or Client's (or any of its personnel or representatives') acts or omissions; (f) any cause beyond Glow Solutions' reasonable control (including fire, flood, earthquake, elements of nature or acts of God, acts of state, acts of war, terrorism, riots, civil disorders, rebellions, revolutions, quarantines, pandemics, embargoes, changes in law, and other similar governmental action); (g) unauthorized access, breach of firewalls or other hacking by third parties; or (h) any Protocol-related penalty or loss.

2. Carbon Credit Participation

2.1 Upon the installation and activation of your solar systems by approved contractors, you have chosen the option to participate in the renewable energy credits, carbon credit program associated with your solar systems. Because you have chosen to participate, you shall be entitled to a percentage of the carbon credits rewards generated by the solar systems in proportion to your ownership interest in the installed solar equipment. You acknowledge and agree that participation in the carbon credit program is voluntary, and you may opt out before activation and protocol fee has been paid. If you choose to opt out you must provide written notice to Glow Solutions immediately. Once the protocol fee has been paid to the Carbon Credit network it can not under any circumstances be refunded.

2.2 Glow Solutions shall provide the necessary information and cooperation to facilitate the homeowner's access to and management of their share of the carbon credits rewards

Transfer of Carbon Credits Rewards

2.3 The renewable energy credits or carbon credits rewards allocated to the homeowner shall be transferred to them on a monthly basis, and Glow Solutions shall use its best efforts to ensure accurate accounting and transparent communication regarding the amount of carbon credits attributable to the homeowner.

Compliance with Applicable Laws

2.4 Both parties agree to comply with all applicable laws, regulations, and requirements related to the carbon credit generation, ownership, and transfer of carbon credits. This clause shall survive the termination or expiration of the main contract.

2.5 IN WITNESS WHEREOF, the parties hereto have executed this Homeowner Participation in Carbon Credit Clause as of the Effective Date.

3. COMPENSATION FOR FACILITATION SERVICES

Client acknowledges and agrees that (a) Glow Solutions will be entitled to that percentage of Protocol Rewards generated in connection with this Agreement as is set forth in Exhibit A and (b) as part of the onboarding process for the Protocol, Glow Solutions will provide the Protocol with its digital wallet address in order to receive such portion of such Protocol Rewards. Client will not do anything to directly or indirectly prevent or circumvent Glow Solution's receipt of such Protocol Rewards. Both parties' receipt of Protocol Rewards will be subject to any applicable blockchain network fees, including gas fees. Each party will be solely responsible for any taxes applicable to its receipt of Protocol Rewards hereunder.
